WORK EXPERIENCE

Web developer
Pelerin Tech SRL [27/01/2022 – Current]

City: Bucharest
Country: Romania

Full Stack Developer, contributing to the creation of web and mobile applications that cater to a diverse range of user needs. My job involves a wide array of technologies and tools, and I play a pivotal role in both the front-end and back-end development processes.
In front-end development, I specialize in JavaScript and TypeScript, using popular libraries and frameworks like React for web applications and React Native for mobile platforms.
On the back-end, I work with Elixir and Phoenix LiveView, harnessing their real-time capabilities to build robust and scalable applications. Additionally, I utilize GraphQL and RESTful APIs to ensure efficient data communication between the front-end and back-end.

INTERNSHIP
ERASMUS+ EU FOR IT CAREER [16/03/2019 – 30/03/2019]

City: Barcelos
Country: Portugal

A two week internship in Barcelos, Portugal where i learned a lot about computer software as well as hardware.

Team Leader
Nokia partnershhip with West University of Timisoara [03/2022 – 06/2022]

City: Timisoara
Country: Romania

I led a team of 3 students for a project proposed and coordinated by Nokia, where we had to build a web application using React and Django. The goal of the project was to retrieve, classify, and display the content of files containing test results from various programs executed by testers at Nokia.

Web developer
Freelancing [06/2023 – 09/2023]

City: Beius
Country: Romania

I crafted a captivating presentation website for a prominent real estate company, harnessing the power of React (JavaScript) and the dynamic framer-motion animation library.
